SKILLS

- Django
- React
- MySQL
- MongoDB
- REST API
- Java
- Python
- PHP
- HTML
- CSS
- Javascript
- AWS

EDUCATION

B.Tech (2021-2024)

Deogiri Institute of Engineering and Management Studies, Aurangabad, India.
Computer Science & Engineering
CGPA: 8.32

Diploma (2018-2021)

MGM's Polytechnic Aurangabad, India.
Computer Science & Engineering.
Percentage: 92.74%

SSC (2017-2018)

Venutai Chavan Kanya Prashala,
Aurangabad, India.
Class X
Percentage: 96.40%

INTERNSHIPS

IBM SkillBuild (<https://shorturl.at/IWX19>)

Role: Frontend Developer

June 2023 – July 2023

Concluded the internship by independently conceptualize, designing, and delivering a fully functional frontend project, showcasing proficiency in web development and design.

K-ways Yeshshree PVT Ltd

Role: Web Developer (Django)

March 2023 - August 2023

Crafted and hosted a industry-focused Django application, showcasing Employee Management System for their organization.

Collaborated closely with the team to gather requirements and continuously improve website functionality.

Apporbis Technologies Pvt. Ltd. (<https://shorturl.at/diwxF>)

Role: Web Developer

Role: Developer

October 2022- December 2022

Worked on customizing Salesforce to suit the unique requirements of organization. This involved creating custom objects, fields, and page layouts to optimize data management.

INaskraft IT Solutions PVT LTD (<https://shorturl.at/uDFOS>)

Role: Web Developer

July 2022 - September 2022

AceFoods : Design a Website for Indian Foods

PROJECTS

DIEMS Attendance Management System (Currently Working on this Project)

(<https://github.com/teki911/DIETMS-ATTENDANCE>)

This Attendance management system designed to streamline all aspects of attendance tracking. It offers features for recording, monitoring, and analyzing attendance data efficiently, enhancing administrative and academic processes within the college.

City Bus Route Management System (Currently Working on this Project)

Creating a dynamic City Bus Route Management System with real-time bus route tracking and personalized alerting features. Designed and maintained a responsive database that displays bus routes, provides real-time alerts for users' preferred buses, and offers comprehensive bus details, enhancing user convenience and engagement.

ProjectHub (<https://github.com/AartiJoshi02/ProjectHub>)

The student project management system allows students to log in, upload their projects, and download relevant projects as needed. It provides a centralized repository for various project documents, fostering collaboration and easy access to resources for academic and research purposes.

Data Structures Visualization and Algorithms

(<https://nervous-babbage-0967ae.netlify.app/>)

Developed a final-year diploma project using React to visually illustrate fundamental data structures like stacks, queues, linked lists, trees and Graph through animations, enhancing students' comprehension of these concepts.

EXTRA CURRICULAR

- Participated in Bits Pilani API Hackathon,
- NetScout Hackathon
- secured 8th Rank(1st Round) at IIT Delhi Hackathon(HackXtreme)
- Working With CodeAppMedia (as a Teacher For HTML, CSS, Python) Singing (Completed Four Classical singing Exams)
- Writing (Published a Book "Run Aaiche" In Institute Level and @mindsthoughts02 My Instagram Page)

ACHIEVEMENTS

1. Successfully design a website for live Firm(<https://www.advajeetbkaleandassociates.in/>)
2. Published Two article on GFG (<https://www.geeksforgeeks.org/difference-between-afforestation-and-deforestation/>)
